

## **CF DESCO® II**

### **DEFLOCCULANT**

**CF (Chrome-Free) DESCO® II** is a proprietary tannin-based deflocculant/thinner that is used for rheology control in water-based fluids.

#### **FEATURES AND BENEFITS:**

- Effective deflocculant/thinner at low concentrations.
- Does not require Caustic Soda to solubilize.
- Effective in systems of high salinity, high-hardness and at any pH.
- More effective than chrome free lignosulfonates.

**RECOMMENDED TREATMENT:** as required (0.5-7.0 kg/m<sup>3</sup>)

#### **PHYSICAL PROPERTIES:**

Appearance:	Red-brown powder
Specific Gravity:	1.5-1.7
Solubility:	Moderately soluble
pH:	~ 8.5

#### **MIXING/HANDLING:**

Mix directly through a conventional jet hopper. Refer to the SDS for specific handling requirements.

**MICROTOX® THRESHOLD: TBD**

**PACKAGING: 11.34 kg bag / 80 bags/pallet**
